Comments:

THE EAGLE RANK SERVICE PROJECT REQUIREMENT (*Advancement Committee Policies and Procedures, page 27*): "For a service project to qualify as an Eagle Scout service project, the Scout, while a Life Scout, must plan, develop, and give leadership to others in a service project benefiting any religious institution, school, or community.

These projects, of course, must conform to the wishes and regulations of those for whom the project is undertaken.

The Eagle Scout service project provides the opportunity for the Eagle Scout candidate to demonstrate the leadership skills he has learned in Scouting. He does the project outside the sphere of Scouting.

As a demonstration of leadership, the Scout must plan the work, organize the personnel needed, and direct the project to its completion.

Service to others is important. Work involving council property or other BSA activities is not acceptable for an Eagle Scout service project. The service project also may not be performed for a business, or be of a commercial nature, or be a fund-raiser.

Routine labor, a job or service normally rendered, should not be considered. There is no minimum number of hours that must be spent on carrying out the project. The amount of time spent must be sufficient for the Scout to clearly demonstrate leadership skills."

Note: This form provides each reviewer a uniform set of metrics to consider when determining the acceptability of an Eagle Leadership project proposal. It is for committee use only after filled out. A separate proposal tracking sheet attached to the Project Workbook is to be returned to the registrar after the Eagle BOR
